

NVISION Eye Centers Sign National Account Agreement for Imprimis Pharmaceuticals' Ophthalmic Compounded Formulations

November 24, 2015

SAN DIEGO and ALISO VIEJO, Calif., Nov. 24, 2015 /PRNewswire/ -- Imprimis Pharmaceuticals, Inc. (NASDAQ: IMMY), a specialty pharmaceutical company focused on the development and commercialization of proprietary compounded drug therapies, and NVISION Eye Centers, Inc., one of the largest U.S. providers of LASIK and cataract surgery, today announced they have entered into an agreement to provide NVISION Eye Center patients with Droplless Therapy™ following cataract surgery and LessDrops™ topical drops following cataract, LASIK and other ocular procedures.

"As the innovative national leader in ophthalmology at the forefront of patient care, and the Eye Doctors' #1 Choice®, we are pleased to implement Droplless Therapy™ and LessDrops™ combination drop formulations at our 24 centers in California, Nevada, Oregon and Arizona," stated James Pereyra, President of NVISION Eye Centers. "Our dedicated world-class surgeons and staff utilize the latest state-of-the-art technologies and techniques and offering Droplless Cataract Surgery™ and LessDrops options for our patients is in line with our primary focus of providing the best possible patient experience and outcomes."

Mark L. Baum, CEO of Imprimis, stated, "We welcome NVISION Eye Centers as a major national account customer. Our proprietary injectable and topical drop formulations have broad applications in ophthalmic surgery and we believe they provide a variety of benefits, including economic, to patients and physicians. It is apparent that patients undergoing various types of ocular surgeries present different needs that include both injectable and topical administrations. Our goal is to service all our ophthalmic customers with offerings that address their preferred method of therapy for their patients."

Mr. Baum added, "In addition to our proprietary Droplless Therapy™ and combination topical formulations, we are also providing NVISION Eye Centers with an array of additional ophthalmic preparations they need on a regular basis to serve their patients. We have the unique opportunity to supply our customers with offerings from our compounding pharmacies that provide the convenience and cost-savings associated with one-stop shopping and top-quality client care."

About Imprimis' Droplless Therapy™ and Combination Topical Formulations

Imprimis' proprietary ophthalmic compounded formulations have been optimized for both injectable and topical applications compatible with the eye. The proprietary drug formulations allow for the increased solubility of a variety of active pharmaceutical ingredients, creating small, uniform particle sizes which enable them to be combined for administration as either an injectable at the time of surgery or used as a topical eye drop post-operatively. Tri-Moxi (triamcinolone acetonide and moxifloxacin hydrochloride) and Tri-Moxi-Vanc (with added vancomycin) are available in single, injectable intraocular doses administered during ocular surgery, where as a result of surgery, there is inflammation and a chance for post-operative infection. Over 400 ophthalmologists are now prescribing Imprimis' proprietary Droplless Therapy™ compounded formulations. Since its launch in April 2014, Droplless Therapy™ formulations have been administered in over 100,000 eye surgeries, primarily cataract surgeries. Ophthalmologists have reported that Droplless Therapy™ formulations may substantially reduce or eliminate the need for costly eye drops following ocular surgeries, thereby simplifying post-operative patient care and helping to provide safeguards against bacterial infection and inflammation. More information is available at www.GoDroplless.com.

Imprimis' portfolio of combination drop therapy topical formulations may require up to 50% fewer drops to be administered by patients and may provide significant cost savings of up to 75% compared to current traditional post-surgery eye drop treatments. The LessDrops™ educational campaign aims to improve patient compliance and alleviate patient confusion associated with complex eye drop regimens. For more information, please visit www.LessDrops.com.

About NVISION Eye Centers

NVISION Eye Centers is one of the largest providers of LASIK and cataract surgery in the U.S., with 24 centers in California, Nevada, Oregon and Arizona. An innovative leader in ophthalmology, NVISION is dedicated to providing the best patient experience through the use of the latest technology and treatment by the most talented and experienced surgeons in the industry. NVISION was founded in 2010 by Tom Tooma, M.D., one of the earliest pioneers of LASIK who has performed more than 100,000 procedures throughout his esteemed career. With more than 2,000 eye doctors referring their patients and trusting their own eyes to NVISION surgeons, NVISION Eye Centers is the Eye Doctors' #1 Choice®.
